Summary

I am hard working, optimistic, and friendly. I have years of teamwork and collaboration skills under my belt from school. I enjoy computer science and study it in school. I like helping others and making other people's day better. I am very skilled in the Godot game engine and my games are uploaded here: https://megadudecc.itch.io/. I make all my games by myself, and all of my games were made with a 1 week or less time constraint.

Education

Morris County School of Technology
Grade 12
Academy of Computer and Information Sciences
